ARES

FOR PARTIAL CAGE CHANGE
AND RACK WASHER

Product features:

- For small-medium size vivaria, existing or new, processing from 2,000 to 6,000 cages per week
- Robots take care of dirty and clean side operations: all hazardous activities can be avoided; operators just have to handle logistics and manage the system through the graphic, user-friendly interface
- The unique gripper design, simulating human hands, can manage all the standard rodent cages available on the market
- Two possible setups (BB and ST) to balance throughput and space requirements with available budgets. Different robot dimensions (from small to medium) and robotic cell footprints, from 12sqm (130sqf) to 20sqm (215sqf) for the solution that better suits your needs
