

CAGE LINERS

DISPOSABLE CAGE INSERTS

Tecniplast has developed a series of liners to be used inside existing plastic cage bodies. Those are made of a very thin layer of polyethylene stackable one inside the other.

COMBINING THE ADVANTAGES OF DURABLE AND DISPOSABLE

Tecniplast disposable cage liners are designed to be used in a durable plastic cage, combining the solidity and reliability of a durable plastic cage with the advantages of a disposable one.

COST EFFECTIVE SOLUTION

Disposable liners can be used in specific situations, in contingencies where washing capabilities are limited or non-existent.

FLEXIBILITY

Cage liners have been developed in order to address unmet market needs for special applications as:

- Irradiation studies
- Imaging
- Toxicology studies
- Quarantine
- Disaster planning
