

DietGel[®] 31M

Purified Soft Maintenance Diet

DietGel[®] 31M is a nutritionally complete soft diet, combining hydration and nutrition in a single serving. The soft diet is modeled on the NIH 31 maintenance formula and made with purified ingredients, including sunflower seeds. The soft texture is ideal for compromised animals.

Delivering Solutions

- Combines balanced hydration and nutrition
- Mirrors NIH 31M nutrient profile for long term administration
- Purified ingredients provide consistent nutrition
- Soft gel promotes consumption by compromised animals, including those with craniofacial disorders, EAE, aging, neurological and surgical models
- Sunflower seeds provide nutrition and enrichment

Delivering Quality

- Sterile inside and out
- Gamma irradiated
- Tyvek medical packaging maintains sterility
- Purified ingredients exclude phytoestrogens and nitrosamines
- Individually coded with lot number and date of expiration
- FDA approved materials
